

HOSPITEX - <http://www.hospitex.com>

HOSPITEX DIAGNOSTICS is an international engineering, manufacturing and trading company based in Italy since 1993. As a supplier of advanced, reliable and affordable diagnostic equipment, it has gained global recognition for its high quality laboratory solutions including instruments, reagents and consumables, suitable for human and veterinary medicine. A team of quality control managers monitor every step of the production process, ensuring accurate development and realization of the final product. Our company standards allow us to fulfill customer requirements by offering innovative technology, convenience, cost effectiveness and flexibility.

Our mission is to make diagnostics instruments that help to detect diseases. Our strategy is to create value for all our stakeholders by accelerating the flow of innovative, new cutting-edge equipments and testing kits that provide improved outcomes for laboratories throughout the world. Most of the products we sell today were discovered or developed by our own scientists and our success depends to great extent on our ability to continue to discover, develop and bring to market innovative new diagnostic equipments. We manufacture and distribute our products through facilities in Italy and our products are sold in approximately 40 countries.
